

Product change notification

Products affected:  **OMNIGene®-ORAL** (gum/plaque and tongue) and  **OMNIGene®-VAGINAL**

Catalog number: OMR-110, OMR-120 and OMR-130

Description: OMNIGene®-ORAL (gum/plaque and tongue) and OMNIGene®-VAGINAL for the easy self-collection and stabilization of DNA and RNA for microbiome profile analysis.

Effective date of change: April 1, 2020

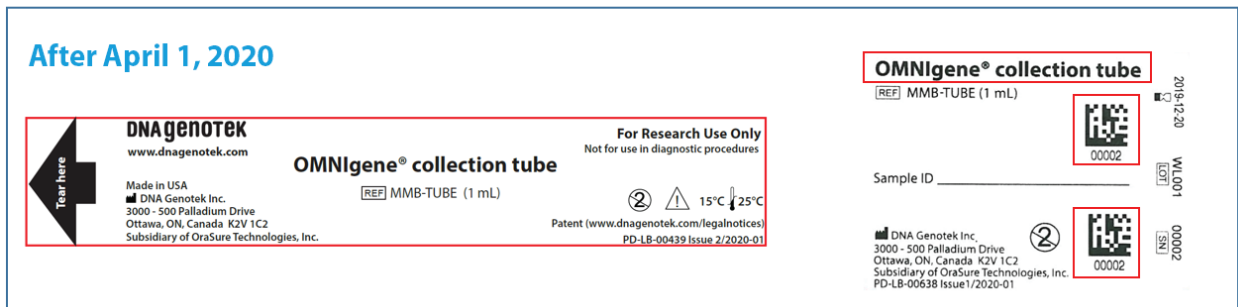

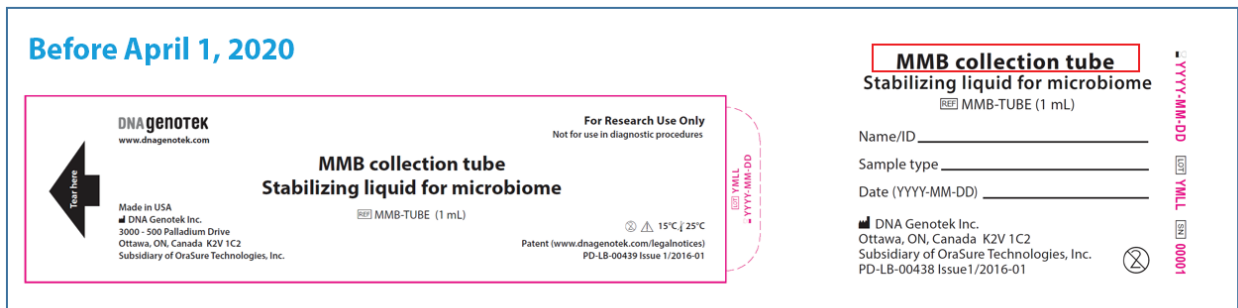

Customer action: No required action is expected. Should you be interested in sample traceability, there will now be a scannable 2D barcode on the tube label.

Reason for this product change notification:

1. To better support workflow scalability and improve sample traceability.
2. To better define the product name and its association with the DNA Genetek’s microbiome product line.

Change description:

1. 2D barcodes (two barcodes 180° apart) are being added to the tube label for the OMNIGene®-ORAL (gum/plaque and tongue) and OMNIGene®-VAGINAL products.
2. Product name “MMB collection tube” is being replaced with “OMNIGene® collection tube” on the tube label and the wrapper packaging.

Please contact info@dnagenotek.com if you have any issues or concerns pertaining to this product change notification.
