

THE ORAGENE[®] ADVANTAGE

DNA from saliva is driving genetic discoveries

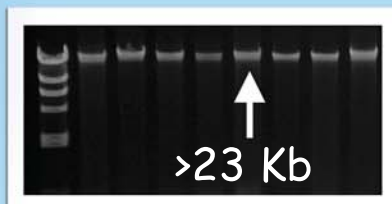

QUALITY AND QUANTITY

DNA from saliva is ~70% WBCs, the same source as DNA from blood

EQUIVALENT TO BLOOD

Microarrays and Next Generation Sequencing

HIGH MOLECULAR WEIGHT

LOW BACTERIAL CONTENT

High DNA yields (up to 110 μ g*)

Manual and automated extraction

PROVEN RELIABILITY

RESEARCH

1000's of peer-reviewed publications

CLINICAL APPLICATIONS

Disease testing
Carrier screening
HLA

CONSUMER-DRIVEN GENETICS

Ancestry
Health and nutrition

EASY TO USE

99% of donors rate Oragene easy to use

Anyone, anytime, anywhere

6000+ customers globally

30+ languages supported

5 minutes

TRANSPORT AND STORAGE

Simple and cost-effective

Extreme temperature protection (-20°C to +50°C)

Stable for years at ambient temperature (15°C-30°C)

SUPPORT AND EXPERTISE

- ISO 13485 and ISO 9001 quality systems certified
- Regulatory expertise (FDA, CE/IVD)
- Global distribution network
- World class customer service
