

Product change notification

Products affected: PERFORMAgene™ extraction reagent

Catalog numbers/SKUs: PG-AC1

Effectivity date: March 1, 2026

Change description:

The PERFORMAgene™ extraction reagent (PG-AC1) will be discontinued as part of our efforts to align with evolving customer needs and priorities.

We understand the importance of continuity in your laboratory operations and are pleased to provide the PERFORMAgene™ extraction reagent (PG-AC4) as a direct replacement.

Catalog number/SKU	Extraction reagent	Number of 0.5 µL extractions per bottle
PG-AC4	PG-L2P Purifier	65

We apologize for any inconvenience this change may cause and appreciate your understanding as we continue to enhance our product offerings.

Customer action:

For more information on PG-AC4 or assistance with transitioning to this reagent, contact your account manager.
