

Product change notification

Products affected:  **ORAgene•RNA**

Catalog numbers: RE-100

Description: For collection of RNA from human saliva samples. For research use only.

Effective date of change: October 10, 2018

Customer action:

None required.

Reason for change:

Product improvement will meet demand for improved usability and laboratory compatibility.

Change description:

The Oragene•RNA (RE-100) vial collection kit is changing to a tube format which optimizes collection, transport and extraction. As such, the RE-100 vial format is no longer available for sale. The new Oragene•RNA mailable tube format is currently available and is designed to yield equivalent RNA results to the original RE-100 vial format.
