

Product change notification

Products affected:  **ORagene•DISCOVER** (OGR-250)

 **ORagene•DNA** (OG-250)

Collection accessories (CS-1 and CS-2)

Catalog number/SKU: OGR-250, OG-250, CS-1, CS-2

Product description: Oragene•DISCOVER (OGR-250) and Oragene•DNA (OG-250) are intended for collection of human DNA from saliva samples. CS-1 and CS-2 are assisted collection accessories used for saliva collection with young children.

Change description: We will be discontinuing OGR-250 and OG-250 Oragene saliva collection kits as well as the CS-1 and CS-2 accessories for assisted collection.

Effective date of change: March 31, 2021

Reason for change: Based on customer feedback, DNA Genotek launched the Oragene 500 and 600 series collection kits, which provide increased usability and utility.

Customer action: Finalize last time purchase, if applicable, and migrate to either Oragene•DISCOVER or Oragene•DNA 500 or 600 series collection kits. Contact your DNA Genotek account manager for information on the appropriate replacement products or email us at info@dnagenotek.com.
